Ambitious Stockport, creating opportunities *for everyone*

About the Job

Role:	Engineer / Transportation Officer – Street Lighting & Sign Maintenance
Service Area:	Network Asset Maintenance Capital Delivery Service
Directorate:	Services to Place
Salary Grade:	Scale 5/6

Main Purpose of the Job

We are seeking to appoint an Engineer with experience in street lighting maintenance who can also work with a GIS system to deliver projects. The post holder will record site activities, oversee contractors work, provide solutions for day to day issues and assist with the delivery of reactive, routine and planned maintenance service.

Key Responsibilities

- Produce plans and reports.
- Support lighting design work.
- Maintain street lighting asset inventory records.
- Assist in researching, analysing and interpreting a range of data including asset information held in GIS to aid compliance with the Council's policies, plans & procedures.
- Assist with the preparation of annual programmes of lighting work in collaboration with other teams.
- Work with Contractors and Utility companies.
- Arrange recharges with our recovery team.
- Ensure lighting or electrical assets on the highway are working correctly and arrange repair work when needed.
- Ensure timely completion of reactive and routine maintenance activities.
- Delivery of lighting related projects.
- To work positively and inclusively with colleagues and customers so that the Council provides a workplace to deliver a service that does not discriminate against people on the grounds of their age, disability, gender reassignment, marriage, civil partnership, pregnancy, maternity, race, religion, belief, sex, or sexual orientation.
- To fulfil personal requirements, where appropriate, with regards to Council policies and procedures, standards of attendance, health, safety and welfare, customer care, emergency, evacuation, security and promotion of the Council's priorities.

Ambitious Stockport, creating opportunities *for everyone*

Additional Information

The responsibilities set out in this document, in the advert and any additional information are intended to provide a flavour of the work you will carry out. It is not possible to include everything you will be asked to undertake, and we expect all colleagues to work flexibly according to business needs and to enhance your own development. Your skills, abilities and training needs will be taken into account and discussed with you when any significant changes to your role are needed. In line with our flexible approach you may be required to work from home for a proportion of your time or from any of the Council's sites across the borough.

The Council is an inclusive employer and holds the Disability Confident and Armed Forces Covenant accreditations. If you have a disability, we will support you by implementing reasonable adjustments to enable you to perform your role.

About You

Please use your application to tell us how well you meet the criteria listed below as these are the key skills, experience, technical expertise and qualifications needed to be successful in the role. We will then use all the information you provide in your application to help us decide whether you are shortlisted for interview. Any interview questions or additional assessments such as tests or presentations may also be broadly based on these criteria:

- Working to the Council's values and behaviours by:
 - Keeping the people of **Stockport** at the heart of what we do
 - Succeeding as a **team**, collaborating with colleagues and partners
 - Driving things forward with **ambition**, creativity and confidence
 - Showing value and **respect** to our colleagues, partners and customers.
- Knowledge of street lighting scheme delivery
- Awareness of reactive / routine street lighting maintenance activities
- Dealing with enquiries/complaints from the public
- Working with maintenance contractors and utility companies
- Awareness of street lighting and sign condition inspections / testing
- Working knowledge of a GIS system
- Awareness of street lighting scheme design process
- Awareness of lighting & highway design specifications and material selection
- Awareness of CDM regulations
- Understanding of street lighting electrical mains supply
- Demonstrable numeracy, literacy and ICT skills at GCSE / BTEC level or above
